# *Time to Fly!*

2024 - 2025 8th Grade Class

**SAINT ALPHONSUS**  
PARISH SCHOOL

Each 8th grader has created a unique hummingbird, using different colors and techniques. They used alcohol inks on wooden birds, which were then mounted on a wood panel board and sealed with epoxy resin.

Legend has it that if a hummingbird flies near you, do not touch it, and instead think positive thoughts, as something extraordinary is sure to happen to you. They are a symbol of good luck, strength in life, and the ability to keep moving through challenges.

As our 8th graders start a new chapter in high school, these hummingbirds represent their ability to do so with strength and positivity!
